

32' St. Pierre Dory Proctor

36' Power Dory

42' Fishing Vessel

Fishing Vessels

These fishing vessels are available in a range of sizes — 32', 36', 42', 46', 52' and 56'. The 32 was designed for plywood and the 36 and 56-footers for building in steel. The 36 could also be converted easily for plywood construction, like our sailing dory designs.

They are all shown in greater detail and with more variations in our book, **SMALL SHIPS**. It also has photos and more detailed information about them and scores of our other power boat designs. For more information about **SMALL SHIPS**, see our price list, **DESIGNS & SERVICES**.
